## Year 3 Programme of Study – Number and Place Value

Statutory Requirements	Worksheet	Page Number	vNotes
Count from 0 in multiples of 4, 8,	Counting in 4s, 8s, 50s and 100s worksheet.		
50 and 100; find 10 or 100 more	10 More 10 Less Worksheet	3 - 8	
or less than a given number	100 More 100 Less Robots Activity Sheets 1, 2 and 3		
Recognise the place value of each digit in a three-digit number	Maths Magician Partitioning Worksheet Hundreds, Tens and Units	9 - 12	
(hundreds, tens, ones)	Hundreds and Ones Number Partitioning Worksheet		
Compare and order numbers up to 1000	Ordering Numbers to 1000 Worksheet 1 and 2	13 - 14	
	Estimate Addition Calculations Worksheet		
	Estimate Subtraction Calculation Worksheet		
Identify, represent and estimate	Estimate Money Calculations Worksheet	15 - 20	
numbers using different representations	Representing Numbers Using Base 10	15 - 20	
	Estimate on 0-1000 Number Line Worksheet		
	Estimate on Different Number Lines Worksheet		
Read and write numbers up to 1000 in numerals and in words	Writing Numbers in Words	21 – 23	
	Estimation Reading		
Solve number problems and practical problems involving these	Speedometers	24 - 27	
ideas.	Solving Number Problems Using Number Representation		

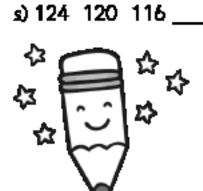

## Counting in 4s, 8s, 50s and 100s

Complete the following sequences:

a) 8 12 16 20	f)64 5640 32
b) 64 56 40 24	g) 350 400 500 600
c) 100 150 200 300	h) 1100 800 700 600
d) 900 600 500 400	084 80 76 72
e) 56 <u>64</u> 68 <u></u> 76	p 80 88 112 120

## Continue the following sequences:

104812 <u> </u>
081624
m) 50 100 150
n) 100 200 300
o) 80 84 88
p) 1250 1200 1150
a) 144 136 128
r) 1500 1400 1300

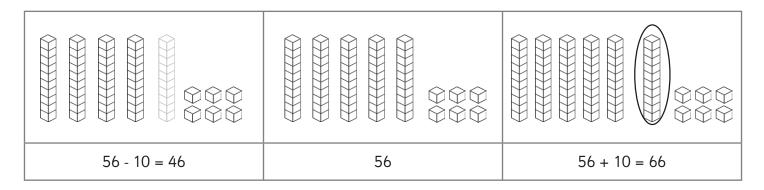

## Challenge

Explain the relationship between counting in 4s and 8s and compare this to the relationship between counting in 50s and 100s.

## 10 More and 10 Less Worksheet

Adding or subtracting 10 can be done by representing or imagining a number as hundreds, tens and units and simply adding or removing one of the tens e.g.

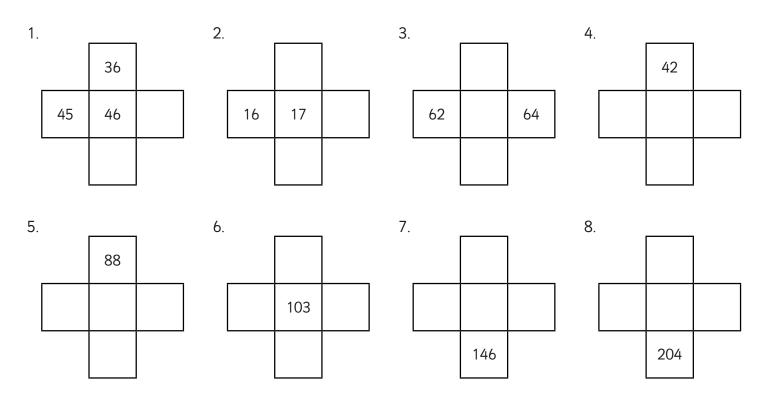

Sometimes you will make a new hundred or need to break a hundred down into tens to be able to do this. e.g.

94	94 + 10	94 + 10 = 104
		10 lots of 10 = 100 so a new 100
		is made.
102	102 - 10	102 - 10 = 92
		<b>T</b> I
~~~~~~	We need to work with 10s so we	Then we can take one away.
	We need to work with TOs so we break the hundred down into 10 lots of 10.	Then we can take one away.

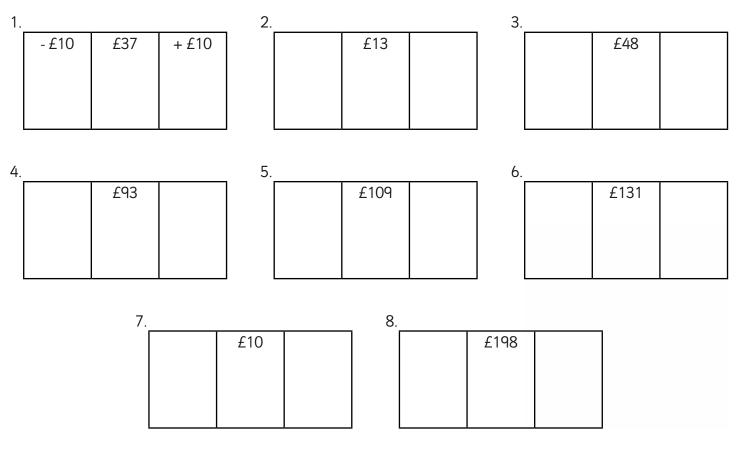

- 1. Try these. Draw the hundreds, tens and units if you wish.
- 1. 43 10 =
- 2. 27 + 10 =
- 3. 59 10 =
- 4. 38 + 10 =
- 5. 97 + 10 =
- 6. 107 10 =
- 7. 153 + 10 =
- 8. 195 + 10 =

1. Can you fill in the missing numbers in these pieces snipped from number squares? Don't forget you can have number squares that are bigger than 0-100

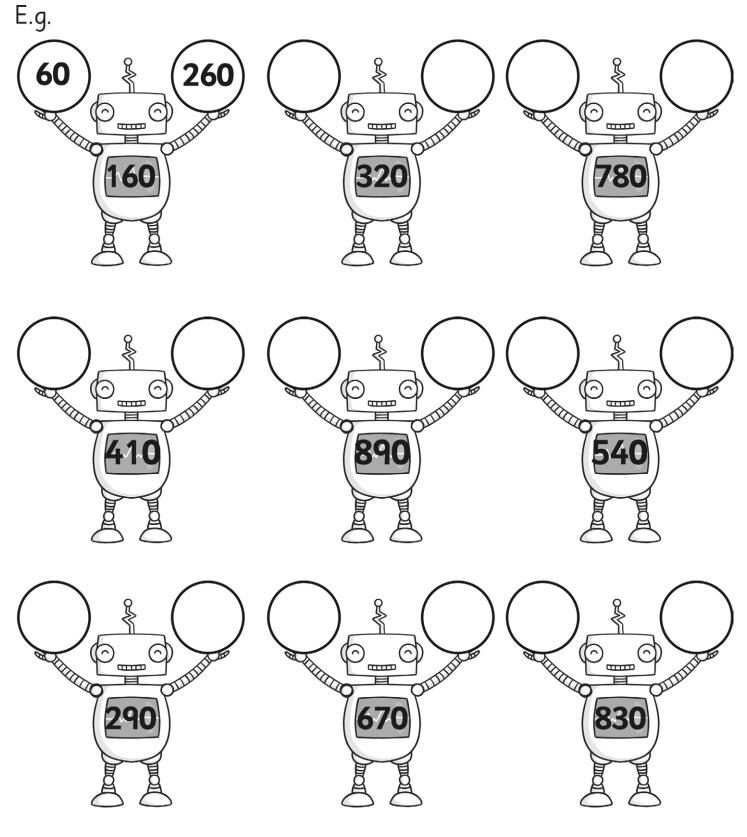

2. Look at the amounts these children have saved. How much would they have if they spent £10 or if they saved £10 more?

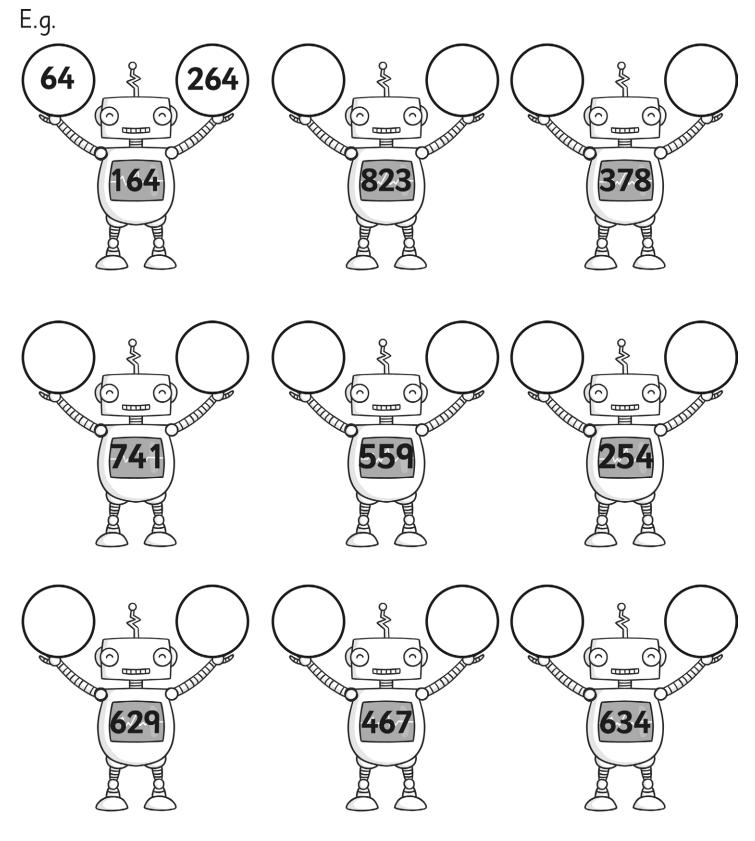

Can you find 100 more than and 100 less than the number in the robot's tummy?

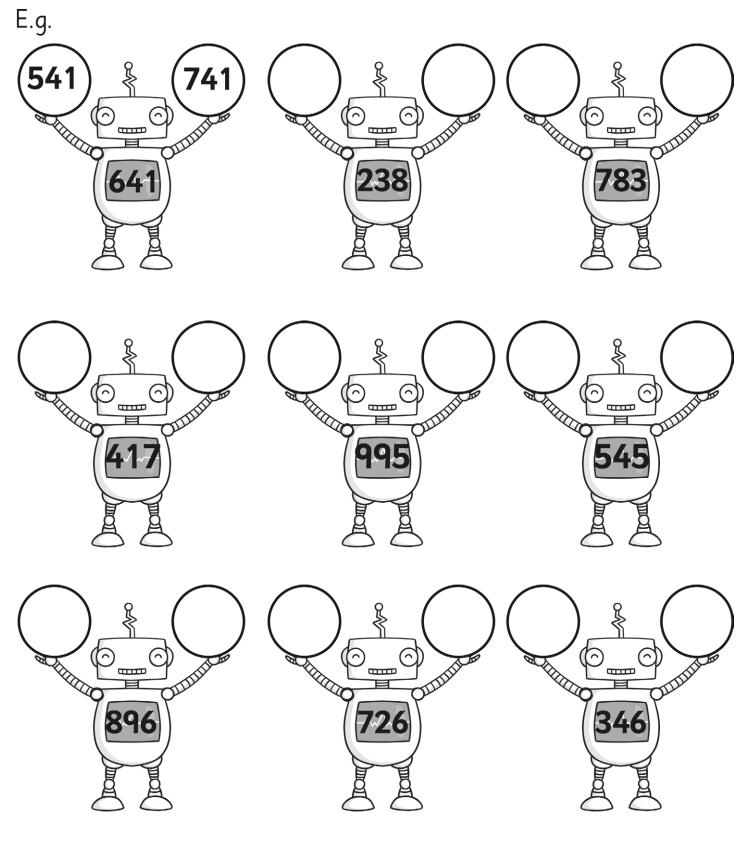

Can you find 100 more than and 100 less than the number in the robot's tummy?

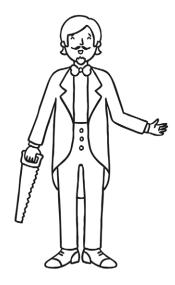

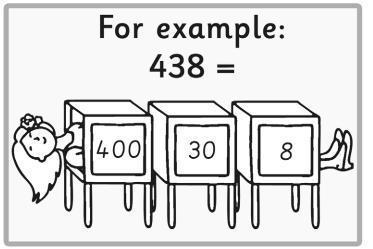

Can you find 100 more than and 100 less than the number in the robot's tummy?

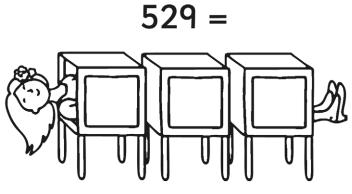

## Maths Magician Partitioning Worksheet Hundreds, Tens and Units

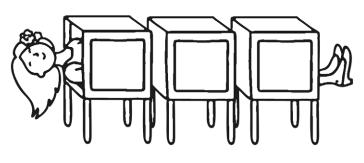

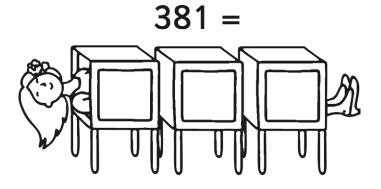

Can you put these numbers into hundreds, tens and units?

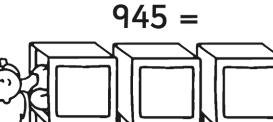

296 =

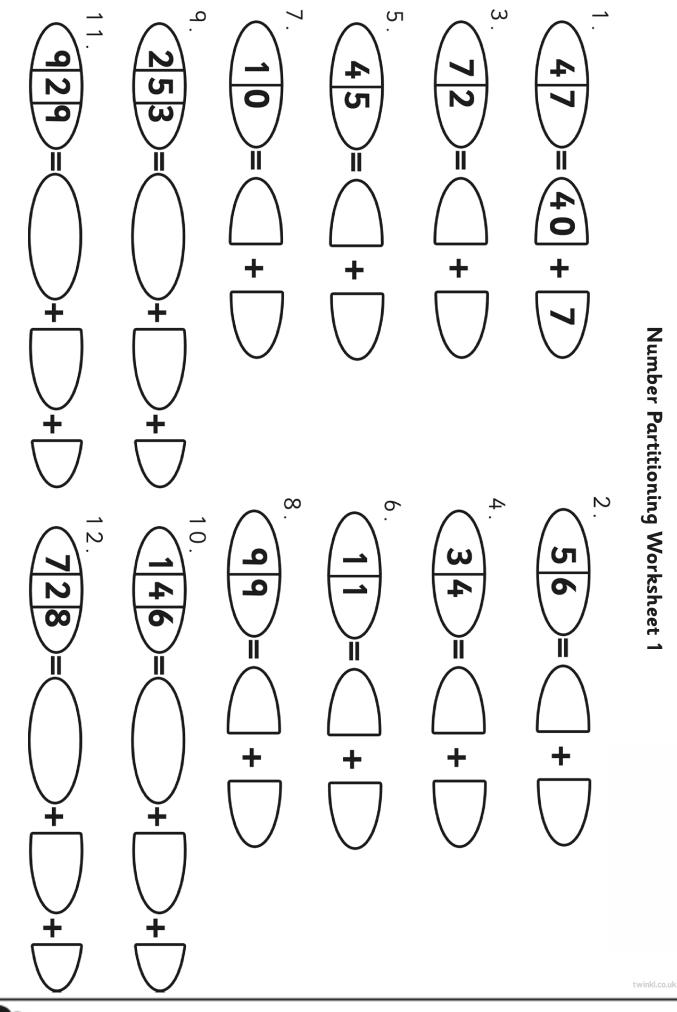

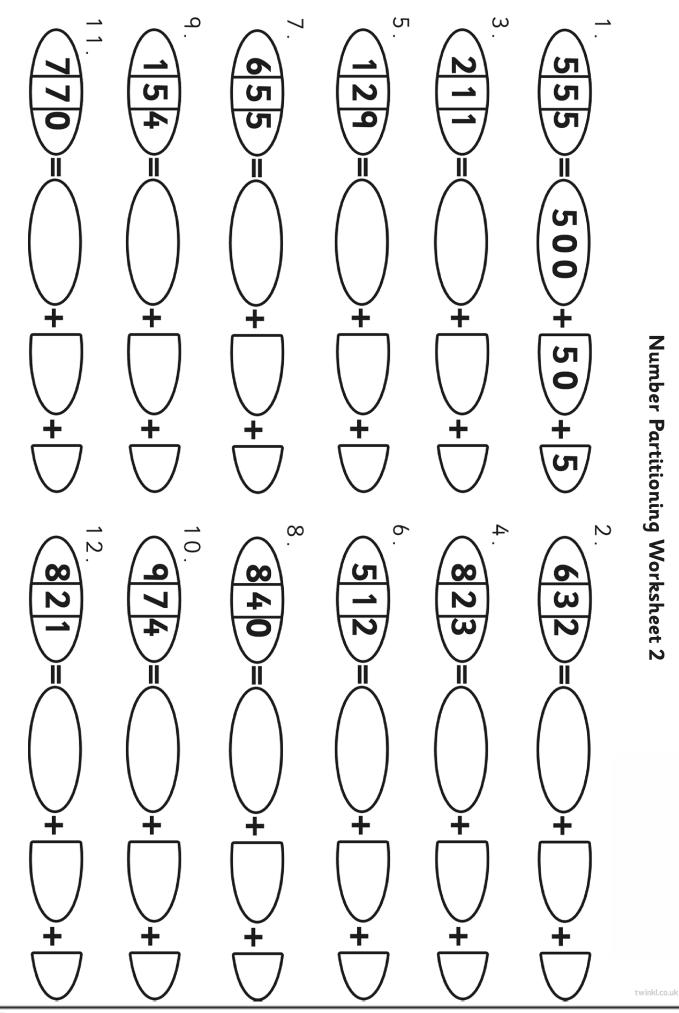

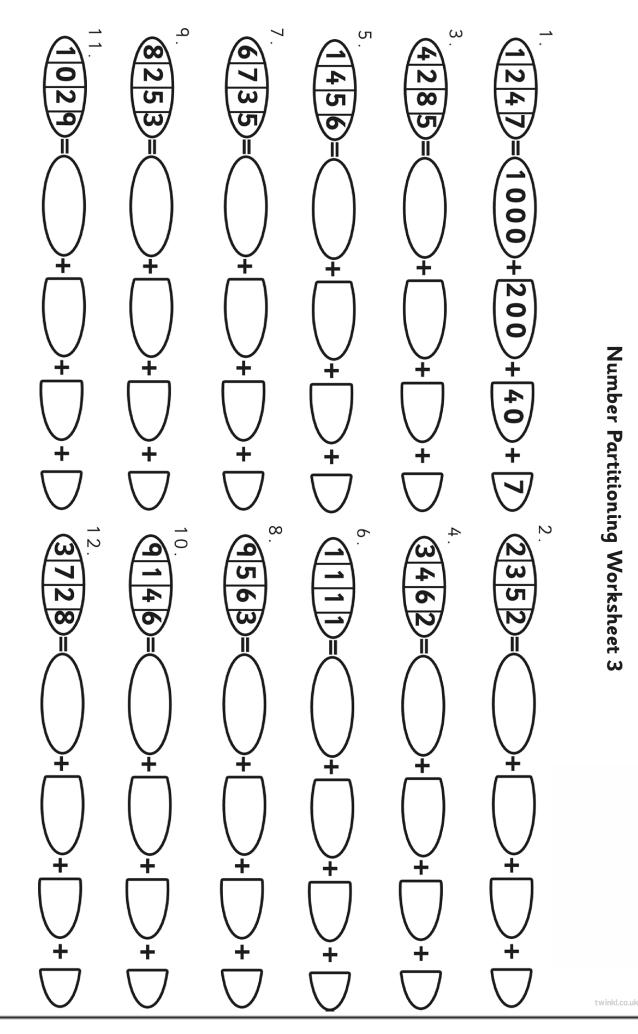

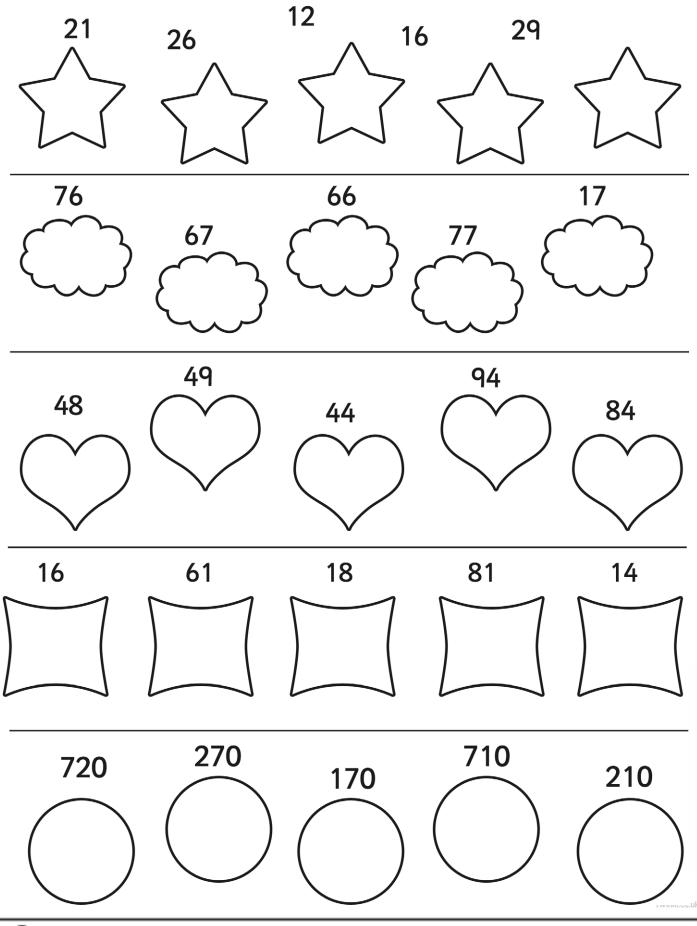

## Ordering Numbers to 1000 Worksheet 1

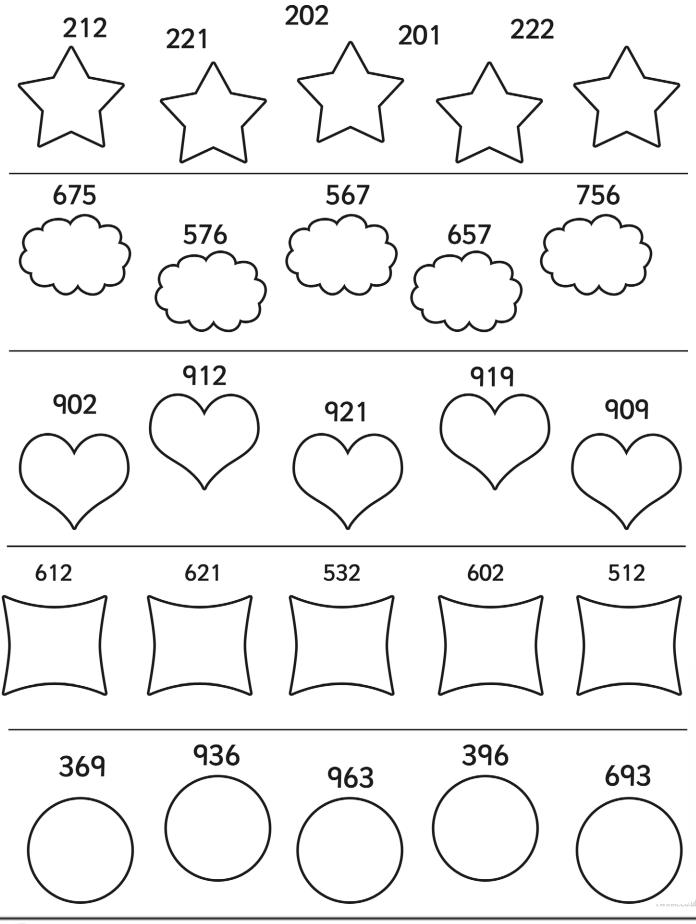

Fill in the spaces below with the numbers in order from smallest to largest.

## Ordering Numbers to 1000 Worksheet 2

Fill in the spaces below with the numbers in order from smallest to largest.

/82 + 214	3/8 + 330	345 + 160	98 + 228	64 + 67 L
456 + 553	150 + 563	285 + 180	104 + 216	26 + 231

## Estimation - Reading Speedometers

Estimation can be useful in real life situations. Be useful and apply your estimation skills to these situations.

Look at the speed limit signs and the speedometers. Is the driver going **Too Fast!** or **Driving Safely**? The first one is done for you.

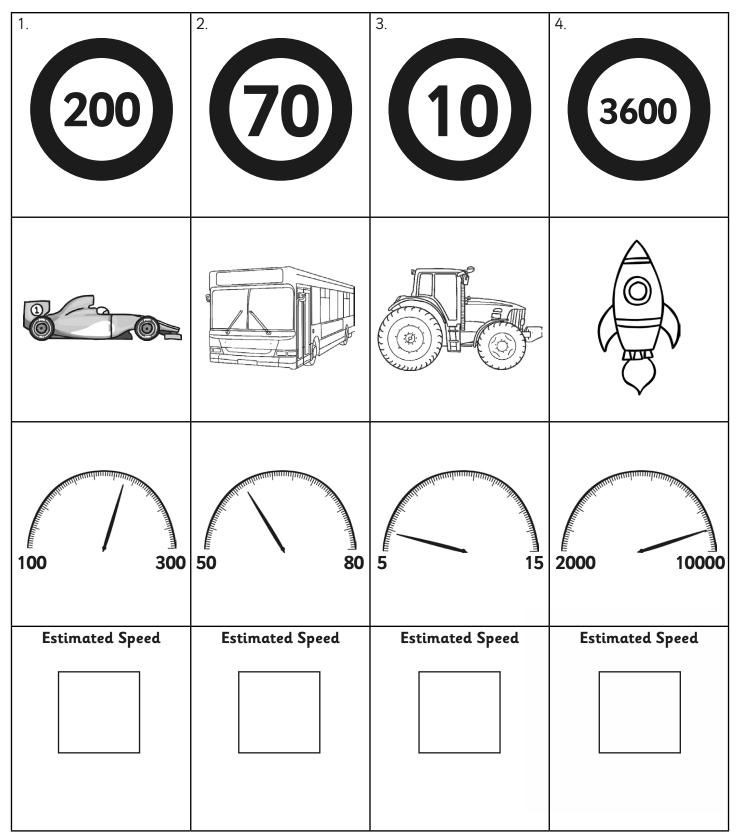

## Estimation - Reading Speedometers

Estimation can be useful in real life situations. Be useful and apply your estimation skills to these situations.

Look at the speed limit signs and the speedometers. Is the driver going **Too Fast!** or **Driving Safely**? The first one is done for you.

## Solving Number Problems Using Number Representation

For each of the problems below, begin by representing the number in the place value chart then complete the calculation by adding or subtracting from the appropriate column.

E.g. The Jones family have 56 fish.

Represent 56 in the chart by using dots or base 10 bars.

Hundreds	Tens	Units		

Then read the rest of the question and add or cross out the extra dots or bars needed.

They buy 10 more. How many do they have altogether?

Don't forget to make a new hundred if you have 10 dots or bars in the tens column.

1. 76 people have attended the School Summer Fayre.

If 10 go home, how many are left?

$\sum$	

	Hundreds	Tens	Units	Answer
)				
$\left  \right $				

## 2. Raj has saved £49.

His grandmother gives him  $\pounds 10$ . How much does he have altogether?

3. Bilal collects stamps. He has 326.

> He buys a packet of 100 with his pocket money. How many does he have now?

	Hundreds	Tens	Units	Answer
$\left \right\rangle$				
6336
